

Press announcement

We invite media representatives to a press conference on the official launch of the project "The Capacity Building of Local Communities: V4 experience for EaPC". The project will be implemented during 2016 in the framework of the flagship projects of the International Visegrad Fund.

The press conference will be held on the January 20th, 2016 at 14-00. Location: Vinnytsia, Soborna str., 85, 2nd floor.

The project applicant is Vinnytsia Regional Department of the International Nongovernmental Organization "Ukraine-Poland-Germany" (Ukraine, Vinnitsya). Ukrainian project partners are International NGO Regional Centre for Cross-border Cooperation Euroregion "Dniester", Local Governments of the Vinnytsia region Association and «Communities of Vinnytsia region» Resource and information center» NGO. Moldavian partners are Public Association Euroregion Dniester and Soroca district Council. Partners from Visegrad countries are The Wielkopolski Centre for Local Government Education and Studies Association –WOKiSS (Poznan, Poland), Institute for Stability and Development, o.p.s. – ISD (Praha, Czech Republic), International Centre for Democratic Transition – ICDT (Budapest, Hungary), Regional Development Association for the Carpathian Euroregion (Nyíregyháza, Hungary) and The Carpathian Foundation (Košice, Slovakia).

Under the project there will be competitive selection of thirty participants of training program from Ukraine and Moldova. The best fifteen participants will take part in a study visit to Visegrad countries. Participants of the study tour will form a group of experts to develop a series of training modules on various aspects of capacity building of local communities. These modules will form the basis of the Academy of Capacity Building of Local Communities operating in Vinnytsia and Soroca providing regular trainings after the project will end. There will be four pilot training modules under the project. The final stage of the project will be conducting the International Conference involving all partners in October 2016.

More details on the project can be found on the project's official website: www.v4foreap.weebly.com and partner sites.
